Headquarters Detachment  
Bolling Air Force Base  
Washington, D. C.

Attention: 

Subject: Return of Government Property  
Contract RA-1076

Gentlemen:

With reference to our recent telephone conversation, following is the history of the action taken by this company with the Government owned spare parts returned to us on Shipping Officer's Voucher No. WSD-52-58 in September 1957.

These parts were the same ones that had been shipped to the  against Contract RA-1076. This depot was subsequently deactivated and the parts were forwarded to WRAMA and then to

Subsequent to the initial shipment to  it was realized by this company that certain of these parts should have gone to Cameron Station. In an effort to correct this error it was requested that the parts be returned to GPL for sorting. Upon completion of this inventory the RADAN Model PC-210 parts were shipped to Cameron.

Amended shipping instructions for Contract RA-1076 were received in your letter 21297 dated November 18, 1957. This letter stated that the RADAN Model PC-210A parts originally consigned to  had or would be disposed of in accordance with that letter.

Based upon this letter therefore, the balance of the parts returned to us were divided equally and shipped to WRAMA and Patuxent.

This action on our part was done in good faith and upon the firm belief that it was in accordance with your wishes. It is regretted that this has turned out to be incorrect and it is hoped that it has not been of a serious inconvenience to you.

Very truly yours,

  
Contract Administrator
